Meaning of “business facility”

3.—(1) A business facility is a single site at which any business activity is carried out.

(2) In this Act, “business activity” means any activity or series of activities (including ancillary activities) —

- (a) that involves the emission of greenhouse gas; and
- (b) that forms a single undertaking or enterprise, having regard to any circumstances prescribed.

(3) For the purpose of subsection (1), where a business activity is a series of activities that is carried out at more than one parcel of land, the business activity is treated for the purposes of this Act as carried out at a single site if the same person has operational control over the business activity, and —

- (a) the parcels of land are contiguous, adjacent or adjoining, or separated only by any road or pathway (whether or not providing access to the business facility), or drain or waterway; or
- (b) where paragraph (a) does not apply, there is a dependency between the

activities carried out on the parcels of land, having regard to any circumstances prescribed.

(4) A series of activities may be treated as forming a single undertaking or enterprise for the purpose of subsection (2)(b) even if —

- (a) any one of the activities in the series is, or any 2 or more activities in the series are, capable of being carried out as a separate and distinct business activity; or
- (b) the activities in the series are from more than one industry sector to which this Act applies.

(5) To avoid doubt, there can be more than one business facility at any parcel of land for the purposes of this Act.

Meaning of “operational control”

4.—(1) A person has operational control over a business facility if the person has the authority to introduce and implement, for the business activity carried out at the business facility (including a business activity that is carried out wholly or partly by a related party of the person), one or more of the following:

- (a) operating policies;
- (b) health and safety policies;
- (c) environmental policies.

(2) Only one person can have operational control over a business facility at any one time.

(3) If more than one person satisfies subsection (1) at any one time, then the person that has the greatest authority to introduce and implement the policies mentioned in that subsection is taken for the purposes of this Act, to have operational control over the business facility.

PART 2

APPLICATION AND ADMINISTRATION

Application of Act

5.—(1) This Act applies only to industry sectors prescribed.

(2) Except as provided in subsection (3), this Act binds the Government.

(3) Nothing in this Act renders the Government liable to prosecution for an offence under this Act.

(4) To avoid doubt, a person is not immune from prosecution for any offence under this Act by reason only that the person is engaged to provide services to or on behalf of the Government.

Administration of Act

6.—(1) The Agency is responsible for the administration and enforcement of this Act, subject to the general or special directions of the Minister.

(2) The Agency may appoint, by name or office, any officer or employee of the Agency to be an authorised officer to carry out such function or duty, or exercise such power, conferred on an authorised officer under this Act, as the Agency may specify.

PART 3

REGISTRATION OF PERSONS AND BUSINESS FACILITIES

Obligation to apply to register as registered person, and to register business facility as reportable facility and taxable facility

7.—(1) Where the total amount of reckonable GHG emissions of a business facility has a carbon dioxide equivalence that attains the first emissions threshold (or higher) whilst the business facility is under the operational control of a person in any year (called in this Part a trigger year), then the person must apply to the Agency —

- (a) to be registered as a registered person;
- (b) to register the business facility as a reportable facility of the registered person; and
- (c) if the carbon dioxide equivalence of the total amount of reckonable GHG emissions from the business facility also attains the second emissions threshold (or higher) in the same trigger year, to register the business facility as a taxable facility of the registered person.

(2) Subsection (1)(a) does not apply if —

- (a) the person is already a registered person; or
- (b) the business facility will cease to be under the operational control of the person by the time the person must make the application under section 8.

(3) Subsection (1)(b) does not apply if the business facility is already registered as a

reportable facility of the registered person.

(4) Subsection (1)(c) does not apply if the business facility is already registered as a taxable facility of the registered person.

(5) For the purposes of subsection (1), a trigger year is 2018 or a subsequent year.

Applications for registration

8.—(1) An application for a registration under section 7 must —

- (a) be made before 30 June of the year immediately after the trigger year;
- (b) identify the person and the business facility in question;
- (c) contain any information prescribed by regulations for assessing applications made under this section, and any other information required by the Agency to assess the particular application; and
- (d) be in the form and manner required by the Agency.

(2) Upon an application being made under this section, the Agency must register the person as a registered person, and the business facility as a reportable facility or taxable facility of the registered person (as the case may be), unless the application is incomplete or not made in accordance with subsection (1).

(3) To avoid doubt, the Agency may treat an application to register a business facility as a taxable facility as also an application to register the business facility as a reportable facility, if the business facility is not already registered as a reportable facility.

(4) A registration under this section is in force starting on the date of registration, until deregistration under section 10.

Entitlement to apply to deregister as taxable facility, reportable facility, and as registered person

9.—(1) A registered person may apply to the Agency to deregister a business facility as a taxable facility of the registered person if —

- (a) the registered person ceases to have operational control over the business facility;
- (b) the total amount of reckonable GHG emissions from the business facility has a carbon dioxide equivalence that does not attain the second emissions threshold for each of 3 consecutive years; or
- (c) where any modification (including by way of additions and removals) to

any work process at the business facility, or to any building or infrastructure of the business facility, is completed and —

- (i) the total amount of reckonable GHG emissions from the business facility in the year in which the modification is completed has a carbon dioxide equivalence that does not attain the second emissions threshold; and
- (ii) the total amount of reckonable GHG emissions from the business facility has a carbon dioxide equivalence that is unlikely to attain the second emissions threshold in each of the 2 consecutive years immediately following.

(2) Without affecting subsection (1)(a), a registered person must give the Agency advance notice in writing of the date that the operational control that the person has over the business facility is to cease, at least 45 days before that date.

(3) A registered person may apply to the Agency to deregister a business facility as a reportable facility of the registered person if —

- (a) the registered person ceases to have operational control over the business facility;
- (b) the total amount of reckonable GHG emissions from the business facility has a carbon dioxide equivalence that does not attain the first emissions threshold for each of 3 consecutive years; or
- (c) where any modification (including by way of additions and removals) to any work process at the business facility, or to any building or infrastructure of the business facility, is completed and —
 - (i) the total amount of reckonable GHG emissions from the business facility in the year in which the modification is completed has a carbon dioxide equivalence that does not attain the first emissions threshold; and
 - (ii) the total amount of reckonable GHG emissions from the business facility has a carbon dioxide equivalence that is unlikely to attain the first emissions threshold in each of the 2 consecutive years immediately following.

(4) A registered person may apply to the Agency to deregister as such if there is no longer any business facility registered as a reportable facility of the registered person.

Applications to deregister

10.—(1) An application for deregistration under section 9 must —

- (a) identify the registered person and the business facility in question;
- (b) contain any information prescribed by regulations for assessing applications made under this section, and any other information required by the Agency to assess the particular application; and
- (c) be in the form and manner required by the Agency.

(2) The Agency may refuse to accept any application that is incomplete or not made in accordance with subsection (1).

(3) To avoid doubt, a deregistration of a business facility as a taxable facility or reportable facility of a registered person does not affect any obligation or liability that the registered person acquired or incurred, or that accrued to the registered person, under this Act in relation to the taxable facility or reportable facility, as the case may be, before the deregistration as such.

(4) The Agency must not deregister a registered person as such if the registered person has not discharged all obligations and liabilities under this Act (whether under Part 4 or 5 or otherwise) that the person acquired or incurred, or that accrued to the person, in relation to a taxable facility or reportable facility of the person as a registered person.

PART 4

GHG EMISSIONS REPORTING REQUIREMENTS

Division 1 — Emissions reporting

Emissions reports

11.—(1) A registered person must submit to the Agency for the Agency's approval, emissions reports relating to the GHG emissions (other than excluded GHG emissions) of every business facility that is a reportable facility of the registered person.

(2) For the purpose of subsection (1), an emissions report must be submitted for each of the following periods relating to each such business facility (each called a reporting period):

- (a) the whole of the year in which the business facility is registered as a reportable facility;
- (b) each year subsequent to the year in paragraph (a) but before the year in

paragraph (c);

- (c) for the year in which the reportable facility is deregistered as such, from 1 January of that year up to and including the earlier of the following:
 - (i) the day immediately before the day of deregistration;
 - (ii) (if applicable) the day immediately before the day on which the reportable facility ceases or is likely to cease to be under the operational control of the registered person.

(3) To avoid doubt, the obligation to submit an emissions report in accordance with this Part arises at the end of the reporting period for which the emissions report must be submitted.

Emissions reports required to be verified

12.—(1) Subject to subsection (3), where the business facility is a taxable facility of a registered person, an emissions report mentioned in section 11 for the business facility must —

- (a) be prepared based on a monitoring plan specified in section 13(1);
- (b) subject to subsection (2), be verified by an accredited external auditor; and
- (c) when the emissions report is submitted under section 11 to the Agency for the Agency's approval, be accompanied by a report by the accredited external auditor of its verification.

(2) The emissions report in subsection (1) need not be verified by the accredited external auditor insofar as it relates to any non-reckonable GHG emission of the business facility.

(3) The emissions report in subsection (1) need not be verified insofar as it relates to any reporting period, or any part of a reporting period, that falls —

- (a) before the approval of the Agency under section 13 for the monitoring plan; or
- (b) after the deregistration of the business facility as a taxable facility of the registered person.

Monitoring plans

13.—(1) For the purpose of section 12(1)(a), the monitoring plan for a business facility that is a taxable facility of a registered person must —

(a) set out the basis on which the registered person ensures the quality of the data required for the computations necessary for an emissions report for the business facility; and

(b) be submitted to and approved by the Agency.

(2) Before granting an approval under subsection (1)(b), the Agency may, in any of the following circumstances, in writing direct the registered person to have its monitoring plan first assessed by an external auditor:

(a) the Agency considers that specialised technical knowledge is required to assess any process at the business facility;

(b) the Agency disagrees with the registered person on any matter set out in the monitoring plan,

and the registered person must comply with the direction.

(3) Where subsection (2) applies, the registered person must submit to the Agency, within the time specified in the direction under that subsection, the report by the external auditor containing the external auditor's assessment.

(4) The registered person must, in the prescribed circumstances, revise a monitoring plan approved by the Agency.

(5) Where the Agency approves any monitoring plan (including one rectified or recomputed under section 14(1) or 15(2)), the Agency must specify the date (whether a date before, on or after the date on which the approval is actually granted) from which the monitoring plan has effect for the purposes of section 12(1)(a).

(6) Any approval given by the Agency for a monitoring plan for a taxable facility of a registered person ceases to be valid with effect from the deregistration of the taxable facility as such.

*Division 2 — Inaccurate, etc., emissions reports and
monitoring plans, etc.*

**Inaccuracies, etc., in emissions reports and monitoring plans, etc., identified by
Agency**

14.—(1) The Agency may, in respect of any incomplete or inaccurate emissions report or monitoring plan, in writing direct the registered person to do all of the following, within the time period specified in the direction or such longer time as the Agency may allow in any particular case:

- (a) carry out such rectification or recomputation as the Agency may require;
- (b) resubmit the report or plan for the Agency's approval,

and the registered person must comply with the direction.

(2) The Agency may, in respect of —

- (a) any verification of an emissions report by an accredited external auditor; or
- (b) any report by an accredited external auditor of a verification in paragraph (a),

that does not comply with any requirement imposed under this Act, in writing direct the registered person submitting the emissions report to have the emissions report re-verified by the accredited external auditor or the report of the accredited external auditor rectified, or both, within the time period specified in the direction or such longer time as the Agency may allow in any particular case; and the registered person must comply with the direction.

(3) The Agency may, in respect of —

- (a) any assessment of a monitoring plan by an external auditor; or
- (b) any report by an external auditor of an assessment in paragraph (a),

that does not comply with any requirement imposed under this Act, in writing direct the registered person submitting the monitoring plan to have the monitoring plan re-assessed or the report of the external auditor rectified, or both, within the time period specified in the direction or such longer time as the Agency may allow in any particular case; and the registered person must comply with the direction.

Inaccuracies, etc., in emissions reports and monitoring plans identified by registered person

15.—(1) Where a registered person discovers any error or omission in any emissions report or monitoring plan prepared by the registered person (whether or not already approved by the Agency), the registered person must notify the Agency of the error or omission within 7 working days after the discovery and provide the following in the notification:

- (a) a description of —
 - (i) the error or omission, and the correction that is to be made or, where applicable, that has been made; and
 - (ii) the circumstances that led to the error or omission;

- (b) where applicable, the GHG emissions of the business facility of the registered person to which the emissions report relates, and their respective amounts, represented by the error or omission.

(2) Upon receipt of a notification under subsection (1), the Agency may in writing direct the registered person to resubmit for the Agency's approval, within the period specified in the direction or such longer time as the Agency may allow in any particular case, a rectified or recomputed emissions report or monitoring plan that incorporates corrections specified by the Agency in the direction; and the registered person must comply with the direction.

(3) The Agency may, in the direction under subsection (2), also require, as the case may be —

- (a) the rectified or recomputed emissions report to be verified by an accredited external auditor; or
- (b) the rectified or recomputed monitoring plan to be assessed by an external auditor,

and for the registered person to submit a report of the verification by the accredited external auditor, or the assessment by the external auditor to the Agency, together with the rectified or recomputed emissions report or monitoring plan.

PART 5

CARBON PRICING

Division 1 — Carbon tax

Carbon tax

16.—(1) A tax, called the carbon tax, is charged on the total amount of reckonable GHG emissions of a taxable facility of a registered person in a reporting period, as is set out in an emissions report or the part of an emissions report for the reporting period that is verified under section 12 and approved by the Agency, respectively.

(2) Subsection (1) does not apply if the total amount of the reckonable GHG emissions in that reporting period does not attain the second emissions threshold.

(3) The amount of the tax charged under subsection (1) is calculated based on the formula $A \times B$, where —

- (a) A is the carbon dioxide equivalence of the total amount of the reckonable

GHG emissions mentioned in subsection (1), rounded up to the nearest metric tonne; and

(b) B is the carbon tax rate specified in Part 1 of the Third Schedule.

(4) The tax charged under subsection (1) accrues as a liability of the registered person at the end of the reporting period in question, and must be paid by the registered person in accordance with this Part.

Payment of tax and penalty

17.—(1) The tax for a reporting period must be paid —

(a) against an assessment pursuant to section 21(1) or (2), by the later of —

- (i) 30 September of the year immediately following the reporting period; or
- (ii) 30 days after the date of service on the registered person of the notice of assessment; and

(b) against any other assessment, within 30 days after the date of service on the registered person of the notice of assessment.

(2) The payment under subsection (1) must be made —

- (a) by the surrender of carbon credits; or
- (b) if, at the time of payment, the registry account for the taxable facility in relation to which the tax is charged is suspended or closed, in the form and manner required by the Agency.

(3) The number of carbon credits that must be surrendered under subsection (2)(a) is the number assessed by the Agency to have a total carbon price equal to the amount of tax charged, rounded to the nearest carbon credit.

(4) If a registered person fails to make full payment of the tax in accordance with subsection (2) within the time specified under subsection (1) —

- (a) a financial penalty of 5% of the amount of tax assessed and remaining unpaid, is payable in addition to the tax that remains unpaid;
- (b) the Agency must serve a demand note on the registered person and if payment is not made within 30 days after the date of the service of the demand note, the Agency may proceed to enforce payment of the tax and penalty under this Act; and

- (c) despite paragraphs (a) and (b), if the amount of tax remaining unpaid is not paid within 60 days after the imposition of the financial penalty under paragraph (a), an additional financial penalty of 1% of the amount of tax remaining unpaid is payable for each completed month that the tax remains unpaid, but not exceeding triple the amount of tax remaining unpaid in total.

(5) The amount of tax remaining unpaid and any financial penalty must be paid to the Agency in the form and manner required by the Agency.

Relief or remission from tax or penalty

18.—(1) The Agency may, if the Agency thinks that it is just and equitable to do so, and upon such conditions as the Agency may impose, give to any registered person any relief or remission from —

- (a) the tax or any part of the tax to which the registered person has been assessed to be liable; or
- (b) any financial penalty or part of any financial penalty to which the registered person is liable under section 17(4).

(2) The Minister may, upon such conditions as the Minister may impose, give to any registered person any relief or remission from —

- (a) the tax or any part of the tax to which the registered person has been assessed to be liable; or
- (b) any financial penalty or part of any financial penalty to which the registered person is liable under section 17(4).

Refund of tax, etc.

19.—(1) Where —

- (a) a registered person has surrendered carbon credits for any tax charged in relation to a taxable facility of the registered person; and
- (b) the tax charged is reduced as a result of —
 - (i) any relief or remission given to a registered person under section 18; or
 - (ii) any revision under section 23 to an assessment of tax,

the registered person may apply to the Agency for a refund of the amount of tax so

reduced.

(2) For the purpose of subsection (1), if —

- (a) the registered person continues to hold a registry account for the taxable facility; and
- (b) the revision was to correct an error that was not on the part of the Agency,

then, the Agency must effect the refund by crediting the registry account for the taxable facility with the number of carbon credits with a total carbon price equal to the amount of tax so reduced.

(3) An application under subsection (1) must be made within 4 years after the date on which the relief or remission is given, or the revision is made, as the case may be.

(4) Where any refund has been erroneously made or any carbon credit erroneously credited pursuant to subsection (1) or (2), the registered person refunded or whose registry account was credited with the carbon credit must pay to the Agency an amount equal to the amount of the erroneous refund or the carbon price of the carbon credit erroneously credited, upon demand being made by the Agency within 4 years after the date of the erroneous refund or credit.

(5) Nothing in this section operates to extend any time limit for an appeal or to validate any objection or appeal that is otherwise invalid, or to authorise the revision of any assessment or other matter that has become final and conclusive.

Recovery of tax and penalty, etc.

20.—(1) Despite the provisions of any other written law —

- (a) any tax remaining unpaid;
- (b) any financial penalty imposed under section 17(4);
- (c) any amount demanded under section 17(4) that is not paid within the time specified in the demand; and
- (d) any amount of refund erroneously made or any amount equal to the carbon price of any carbon credit erroneously credited, mentioned in section 19,

is recoverable as a debt due to the Government and the Agency may, in the name of the Agency, sue for such tax, financial penalty or amount.

(2) For the purposes of section 33(2) of the Limitation Act (Cap. 163), any financial penalty imposed under section 17(4) is treated as interest on tax.

(3) To avoid doubt, section 6(4) of the Limitation Act does not apply to any financial

penalty imposed under section 17(4).

Division 2 — Assessments of tax

Assessments by Agency

21.—(1) Upon approving a verified emissions report for a taxable facility of a registered person for a reporting period, the Agency must assess —

- (a) the tax charged under section 16(1) for the reporting period; and
- (b) the number of carbon credits that the registered person must surrender to pay the tax.

(2) Where the Agency is of the opinion that a registered person is liable to pay the tax for a reporting period and —
